'module' object has no attribute 'corrplot'

```python
import seaborn as sns
import matplotlib.pyplot as plt

sns.corrplot(rets,annot=False,diag_names=False)
```

I get this error after I call the function above...don't know whats going on

```
AttributeError                            Traceback (most recent call last)
<ipython-input-32-33914bef0513> in <module>()
----> 1 sns.corrplot(rets,annot=False,diag_names=False)

AttributeError: 'module' object has no attribute 'corrplot'
```

python   seaborn

1 Answer

The `corrplot` function was deprecated in seaborn version v0.6:
https://seaborn.github.io/whatsnew.html#other-additions-and-changes

Note that the function actually still exists in the seaborn codebase, but you have to directly import
it from `seaborn.linearmodels` and you will get a warning that it is subject to removal in a future
release.
