Resources for More Basic Practice
Section 3, Lecture 26

Before you begin your assessment, I wanted to point out some helpful
links for practice:

Basic Practice:

http://codingbat.com/python

More Mathematical (and Harder) Practice:

https://projecteuler.net/archives

List of Practice Problems:

http://www.codeabbey.com/index/task_list

A SubReddit Devoted to Daily Practice Problems:

https://www.reddit.com/r/dailyprogrammer

**A very tricky website with very few hints and touch problems (Not
for beginners but still interesting)**

http://www.pythonchallenge.com/
